Hiring Policy

POLICY STATEMENT

The Library is committed to ensuring that the best qualified candidates are selected for positions within the organization. While the employment of relatives is permissible, additional precautions are required to ensure that conflicts of interest whether through a direct reporting relationship or an indirect reporting relationship do not arise. This policy and its companion procedures assure that conflict of interest situations between relatives are avoided, and that, to the extent possible, hires, advancements, and promotions are done on the basis of the candidate's merit, skill, ability to perform the duties of the position, experience and where applicable, past performance. It also provides assurance that candidates for employment or advancement, who are related to existing Library employees are not unduly discriminated against if conflicts of interest between the candidate and his/her relative can reasonably be avoided.
