

# Bounce Completed Sessions

- When you are finished with a session and want to begin mastering, you need to bounce the session for optimal sound quality

6. Retrieve your bounced file from **C:/USERS/CHSTUDIO/DOCUMENTS > the session folder > Bounced Files**
7. Save to external storage device.

1. Use the **Selector tool** to highlight the length of the session in the **Timeline**.

2. Click **File > Bounce To > Disk**.
3. If you wish to Add an MP3, make sure to check the **Add MP3** box.
4. Click **Bounce**.
5. A window will open to input MP3 information. Fill out the form, and click **OK**.
